## **Long-Term Recovery Help Grows for Nebraska Storm Survivors**

## **Keep your recovery options with U.S. Small Business Administration (SBA) low-interest loans**

SBA loans provide the largest source of long-term federal disaster recovery funds for survivors in a major disaster declaration. To ensure you are eligible for all federal assistance available to cover uninsured and under-insured losses, you *should* register with FEMA and *apply* online

with SBA before the deadline. By submitting an initial application with SBA, you will keep the option open to obtain recovery funds that you may need.

Don't wait for insurance claims to be settled; it is not necessary to know how much money you may need. There is no cost to apply, or any obligation to accept funds if approved. SBA loan rates are as low as 2.063 percent for homeowners or renters, and as low as 4 percent for businesses.

Most homeowners and renters are automatically referred to apply with SBA, based on the information provided in their FEMA application. If SBA is unable to offer you a loan, you may be referred back to FEMA for potential additional grant assistance. Survivors who've been referred for low-interest loans with SBA and don't apply, will not be considered for these "other needs" grants from FEMA.

SBA has already approved **\$30.7 million** in low interest disaster loans as of **May 14**. For homeowners and renters, SBA has approved **543 loans** for **\$27,090,400** and for businesses and private nonprofits in Nebraska, SBA has approved **29 loans** for **\$3,622,600**. To apply online or for any questions, residents and businesses can visit [SBA.gov/disaster](https://www.sba.gov/disaster), call SBA's Customer Service Center at **800-659-2955**, or email [disastercustomerservice@sba.gov](mailto:disastercustomerservice@sba.gov). TTY users may call **800-877-8339**.

### **Free Safety and Health Consultations Available to Flood-Impacted Businesses**

The Nebraska Department of Labor (NDOL) is offering free safety and health consultations to businesses in flood-impacted areas. Trained NDOL consultants are available to assist with mold remediation plans, provide safety and health assessments, identify electrical hazards, and perform overall risk assessment. The free consultations are available through the On-Site Safety and Health Consultation program. For more information go online to [dol.nebraska.gov](https://dol.nebraska.gov).

### **Nebraska Joint Information Center Crisis Counseling Services Available**

The Nebraska Emergency Management Agency was awarded a grant for more than \$400,000 from the Federal Emergency Management Agency to make **disaster-related crisis counseling services** available. Outreach workers will be available to support emotional and psychological recoveries of Nebraskans impacted by the floods. Survivors may call the Rural Response Hotline at 800-464-0258. Callers can get tips on how to handle disaster-related distress, along with referrals to local treatment centers, support groups and community-based organizations. **For more information see [nema.nebraska.gov](https://nema.nebraska.gov).**

### **National Flood Insurance Program (NFIP)**

### **NFIP Increased Cost of Compliance Can Help with Rebuilding in Nebraska**

ICC funds can help defray the costs of elevating, floodproofing, demolishing or relocating a residential structure. For more

information contact your local floodplain administrator, NFIP at **800-427-4661**, or your insurance agent.

FEMA's Public Assistance grant program provides federal assistance to state and local governments and certain types of private nonprofit organizations following a presidential disaster declaration.

Through the program, FEMA can reimburse eligible costs for debris removal, life-saving emergency protective measures and the repair, replacement or restoration of disaster-damaged publicly owned facilities and the facilities of certain private nonprofit organizations. The Public Assistance program also encourages protection of these damaged facilities from future events by providing assistance for hazard mitigation measures during the recovery process.

As a result of the amendment, there are now 76 Nebraska counties designated for all categories of PA assistance. Four counties and five tribes have been designated for emergency work and debris removal assistance.

For a listing of counties in Nebraska eligible for these programs, visit online <https://www.fema.gov/disaster/4420>.
